

**RYNOWORX** combines a comprehensive knowledge of the Asphalt Industry with a desire to learn and grow from our customer feedback, to bring you top-of-the-line unique products. Our team seeks out opportunity in our designs, improving on real issues that you and your team face on the job site. RynoWorx brings innovation to our industry, making crack fill melter applicators and kettles that are built safer, tougher, and better, to help you Maximize your Business.

“

RynoWorx equipment is designed by guys who have worked in this business. It shows in every detail, like the flame-out-proof burner on my RY10 PRO.

**MELTER KETTLE**

# THE RY30MK-PRO MELTER KETTLE

The RY30MK-PRO is the world's first 30-gallon Direct Fired Crack Fill Melter Kettle featuring dual internal burners.

This kettle is designed to be free standing, or optionally bolted to any truck, or trailer. Its heavy-duty molasses valve allows you to control the flow of material into any pour-pot, or bander. Safety, reliability and efficiency combine in this machine to create a contractor's must-have.

## SPECIFICATIONS

Fluid Capacity	30 US Gallons
Kettle Steel Thickness	14 Gauge
Empty Weight	242 lbs/ 109.9 kg
Full Weight / Fluid Capacity	536 lbs/ 30 Gallons
Fuel Type	Propane
Max Fuel Pressure	1/2 psi
Burner Type	Dual 60,000 BTU/hr Sealed Burner
Valve Type	2" Molasses Valve
Agitation Type	Manual

## PRODUCTIVE

- Melts crack sealant up to 50% faster than torch-fired models and allows you to melt enough filler to apply up to 9,600 feet of crack filler per day.
- Twin sealed burners consume nearly 50% less fuel than traditional torch-fired melter applicators.

## RELIABLE

- Burners are shielded from the elements and virtually resistant to flame-outs caused by wind, which are common to torch-fired models.
- The unique glycerin-filled thermometer is highly resistant to damage caused by constant vibrations during regular use, which ensures a reliable temperature reading every time.

## EASY TO OPERATE

- No more wasting time searching for a striker, lighter or matches. Starting a melter has never been easier with our push button electric ignition.
- Two independently operated burners — run both burners for a blazing fast pre-heat or run a single burner to preserve fuel to maintain temperature or when melting speed isn't important.

## SAFETY BUILT IN

- Kettle is equipped with adjustable safety clamps, which helps keep your lid securely fastened while moving from job to job.
- The unique sealed burners are equipped with a CSA / UL approved flame-out sensor which detects flame-outs and shuts off the flow of fuel to the burner.
