# THE R2 MINI INFRARED HEATER

## RynoWorx® Infrared Asphalt Heaters

will bring distressed asphalt back to life.

Infrared technology allows you to heat up and soften damaged areas so that they can be re-worked and compacted to appear brand new.

RynoLink caster assemblies allow multiple heaters to be connected together for larger work areas.

In as little as 8 minutes this heater will have the asphalt brought to its original mixing temperature, allowing for effective and cost-efficient repairs.

**You'll now be able to spend minimal time repairing potholes, bird baths, cracks, seams, and other surface imperfections on both new and used asphalt.**

## SPECIFICATIONS

Model	R2
Heating Area (inches)	24" x 24"
Assembled Dimensions	42-7/8" x 43-1/2" x 27"
Weight (lbs)	153 lbs
Fuel Type	Propane Vapor
Max Fuel Pressure (psi)	35 psi
Burner Type (BTU)	50,000 BTU/hr Infrared
Heater Cartridge	Ceramic

## PRODUCTIVE

- Eliminate trips to purchase new asphalt and dispose of old damaged asphalt by simply re-heating and re-working the affected areas.
- The Mini Infrared Heater has one of the lowest operating costs on the market, allowing 6-8 hours of runtime on a 20lbs propane tank.

- RynoLink caster assemblies allow for multiple heaters to be connected together and operated as a single, larger unit.

## RELIABLE

- Optional wind skirts contain heat, and ensure that your Mini Infrared Heater will not be affected by weather conditions.
- Easily replaceable heater cartridge.

## EASY TO OPERATE

- RynoLink castor assemblies allow for multiple units to be connected together and controlled by a single operator on larger work areas.
- Ergonomic adjustable handlebars allow for a compact footprint during transportation and a raised position during operation.

## SAFETY BUILT IN

- Adjustable regulator with built-in pressure gauge allows for safe and precise control of fuel flow and heater temperature.
- Infrared heater technology replaces the need for an open torch flame which creates a safer work area for the operator.
